TOTO is globally recognized as the leader in research and development for the bathroom. But we’re not innovating, just for innovation’s sake – our technologies are developed to create bathroom products that not only perform reliably, but conserve water and improve the quality of people’s everyday life too.

A Washlet and toilet system that is specially designed for a seamless installation.

1G GPM GRAVITY

1G toilets use the power of gravity to provide the most efficient flush in the industry.

**Previously known as Double Cyclone Flushing Technology.**

Tornado Flush features a state-of-the-art, hole-free rim design that offers dual-nozzle bowl cleansing, creating a centrifugal rinsing action that cleans the bowl more efficiently.

**Previously known as Dual Max Cyclone.** 3D Tornado features three powerful nozzles that create a powerful centrifugal rinsing action and combines it with the conservation of 0.9 or 1.28 GPF.

Dual-Max indicates a dual flushing system that optimizes conservation by allowing you to select either 0.9 or 1.28 GPF and 0.9 or 1.6 GPF.

E-Max indicates high performance, high-efficiency flushing technology using only 1.28 GPF. It features a 3" wide flush valve, large trapway, and extra-large siphon jet.

G-Max indicates a reliable flushing technology with 3" wide flush valve, large trapway, and extra-large siphon jet.

**Previously known as Sanagloss.** CeFiONtect glaze prevents visible and invisible waste from sticking to ceramic surfaces, leading to the use of less chemicals and water to clean.

Product complies with Americans with Disabilities Act accessibility guidelines.

Universal Height indicates toilets that allow for a more comfortable position across a wide range of users.

The trapway is concealed by smooth porcelain, making the toilet easier to clean.

Indicates a product featuring an integrated, automatic, sensor activated function. Products like the Neorest, select Washlets, EcoPower Faucets and Flush Valves, Soap Dispensers and Hand Dryers.
After each flush, TOTO’s ewater+® mists the bowl with electrolyzed water, reducing the need for harsh cleaning chemicals.

ACTILIGHT™

UV light combined with a special glaze breaks down dirt and grime in the toilet bowl.

PREMIST™

Using the incoming water supply, a Premist wets the toilet bowl surface aiding in the elimination of waste approximately 80 percent better than a dry bowl.

ECOPOWER®

EcoPower indicates sensor faucets and flush valves that are powered by flowing water.

SMA THERMOSTATIC VALVE TECHNOLOGY

Thermostatic valve that features Shape Memory Alloy (SMA) technology for reliability and maintaining consistent water temperature.

AERO-JET+™

Injects air into the water stream and adds a pulsating feature for a more invigorating shower experience.

AERO-JET™

Uses air injection technology to infuse air into the water stream, creating voluminous droplets while using less water.

CASCADE FLOW

Waterfall-like shower function that immerses your entire body.

GYROSTREAM

Pulsating water is sprayed through a rotating nozzle.

WATERSENSE

Products that meet the EPA standards for water efficiency and performance criteria. Toilets are 1.28 GPF or less, faucets are 1.5 GPM, and showers are 2.0 GPM.

CALGreen

Meets CalGreen Water Regulations for new construction and permitted remodel.
NEOREST WITH ACTILIGHT™

The Neorest 750H with Actilight technology is truly a revolutionary innovation at the peak of luxury. This intelligent toilet uses an integrated UV light and special glaze to break down dirt and grime in the bowl.
HOW IT WORKS

SPECIAL GLAZE
The ceramic features a special photocatalytic glaze that is especially durable and hydrophilic. Water easily washes away and eliminates the waste.

ACTIVATED OXYGEN
The interplay of the special glaze and UV light releases activated oxygen, which breaks down waste without attacking the surface – a process that is completely safe for the environment.

ULTRA-VIOLET LIGHT
Once the toilet lid is closed, the integrated UV light turns on for an hour.

SELF-CLEANING TOILET
The Actilight function makes the toilet completely self-cleaning. If the toilet is not in use for eight hours, it automatically sprays the bowl with ewater+. After 10 hours, the UV light in the lid switches on.

PRODUCT OVERVIEW

NEOREST® 750H
DUAL FLUSH TOILET 1.0 GPF/0.8 GPF
MS993CUMFX
- Tornado Flush™ system, ultra-high efficiency (1.0GPF/3.8LPF and 0.8GPF/3.0LPF)
- CeFiONtect™ ceramic glaze - prevents debris, and mold from sticking to ceramic surfaces, leading to fewer chemicals and less water in cleaning.
- Skirted design
- Auto open/close lid, auto flush
- Ewater+® technology
- Universal Height
- ADA compliant
- Meets WaterSense® efficiency and performance standards

For more information on dimensions please refer to product spec sheet.
NEOREST® 700H
DUAL FLUSH TOILET 1.0 GPF/0.8 GPF
MS992CUMFG

- Tornado Flush™ system, ultra-high efficiency (1.0GPF/3.8LPF and 0.8GPF/3.0LPF)
- CeFiONtect™ ceramic glaze - prevents debris, and mold from sticking to ceramic surfaces, leading to fewer chemicals and less water in cleaning.
- Skirted design
- Auto open/close lid, auto flush
- Ewater+® technology
- Universal Height
- ADA compliant
- Meets WaterSense® efficiency and performance standards

NEOREST 500H
DUAL FLUSH TOILET 1.0 GPF/0.8 GPF
MS952CUMFG

- Tornado Flush system, ultra-high efficiency (1.0GPF/3.8LPF and 0.8GPF/3.0LPF)
- CeFiONtect ceramic glaze - prevents debris, and mold from sticking to ceramic surfaces, leading to fewer chemicals and less water in cleaning.
- Skirted design
- Auto open/close lid, auto flush
- Ewater+ technology
- Meets WaterSense efficiency and performance standards

NEW

For more information on dimensions please refer to product spec sheet.
NEOREST® 550H
DUAL FLUSH TOILET 1.0 GPF/0.8 GPF
MS982CUMG

- Tornado Flush™ system, ultra-high efficiency (1.0GPF/3.8LPF and 0.8GPF/3.0LPF)
- CeFiONtect™ ceramic glaze - prevents debris, and mold from sticking to ceramic surfaces, leading to fewer chemicals and less water in cleaning.
- Skirted design
- Auto open/close lid, auto flush
- Ewater+ technology
- Meets WaterSense® efficiency and performance standards

NEOREST® 550
DUAL FLUSH TOILET 1.6 GPF/1.1 GPF
MS980CMG

- Tornado Flush system
- CeFiONtect ceramic glaze - prevents debris, and mold from sticking to ceramic surfaces, leading to fewer chemicals and less water in cleaning.
- Skirted design
- Auto open/close lid, auto flush
- Convenient remote control
- Meets WaterSense efficiency and performance standards

TOTO WASHLET®

The Washlet brings a new, refreshing lifestyle to America. Cleansing with warm water after using the toilet provides an exceptionally clean feeling. The Washlet’s self-cleaning wand is fully adjustable, allowing users to set the precise temperature and spray type for comfortable intimate cleansing.
Cleansing Functions

Rear

The rear spray is designed to clean the rear intimate area. It features pleasant, yet strong water pressure to target this specific area.

Rear Soft

It has a larger radius to cover more space. Low water pressure makes for a soft, comfortable spray.

Front

The front wash consists of large, soft drops for comfortable intimate cleansing – for a clean, fresh feeling.

Wide Front

It has a larger radius to cover more space. Low water pressure makes for a soft, comfortable spray.

*On Washlet S350e & S300e only

Hygiene Functions

Deodorizer

The deodorizer effectively cleans the air around the toilet using powerful filters. Air is drawn in, passing through an ionized carbon filter to eliminate unpleasant odors.

Heated Seat

The specially designed, contoured seat is heated to provide maximum comfort. An integrated sensor maintains the desired setting between 82°F and 97°F.

SoftClose® Lid

The SoftClose lid closes gently to eliminate seat slamming. The S350e & G500 model lids are activated by sensors for automatic opening and closing.

Hands-Free Dryer

Enjoy the ease and comfort of hands-free drying with the temperature-adjustable warm-air dryer.

Comfort Functions

Self-Cleaning Wand

The self-cleaning function cleans the entire wand before and after each use.

Premist™

Using the incoming water supply, a pre-mist wets the toilet bowl surface aiding in the elimination of waste approximately 80 percent better than a dry bowl.

New Technology

Ewater+®

Electrolyzed water is a proven disinfectant used in food preparation and cleaning. After each use, TOTO's ewater+ mists the bowl with electrolyzed water, reducing the need for harsh cleaning chemicals.

*On Washlet S350e & S300e only

1 GALLON GRAVITY-FED TECHNOLOGY (1.0 GPF)

TOTO’s 1G toilets offer substantial water savings without wavering on our renowned performance. Using our powerful — yet surprisingly quiet — gravity-fed Tornado Flush™ technology, 1G fully evacuates the bowl with an ultra-efficient one gallon of water.

REDUCES WATER USE BY 35% OR MORE ON AVERAGE OVER A STANDARD 1.6 GPF TOILET

*The average American flushes five times a day at home. Assuming an average household of 3.2 people over 365 days @ 3¢ per gallon.

(G) Ebony #51 less CeFiONtect
(R) Right-hand trip lever available
TOTO’s industry-leading Tornado Flush system features a state of the art hole-free rim design that creates a powerful whirlpool of water. Combined with the extraordinarily smooth Cefiontect glaze that prevents particulates from adhering to porous, ceramic surfaces every inch of your bowl stays cleaner, longer. Cefiontect’s ion barrier keeps everything clean which leads to fewer chemicals in the environment and less water used for cleaning.

MODERN ACCESSORIES
AERO® SHOWERS

Aero Showers use air injection technology to increase water volume by adding air into each water droplet. The result is the feeling of a full, rich shower while using less water than a standard showerhead or handheld showerhead.

*Requires either TS110MV16 or TS110MC6 arms to be used.
WaterSense mark only applies for Low-Flow (L) handshowers.
For more information on dimensions please refer to product spec sheet.
Shape Memory Alloy (SMA) coil responds to temperature changes more quickly than traditional wax-based systems, offering a more reliable and enjoyable showering experience.
